DEAR COLLEAGUE

On behalf of the Tennessee Podiatric Medical Association, welcome to the **Tennessee Foot & Ankle Conference**.

Our three-day conference will cover the entire spectrum of foot and ankle care in sessions aimed at enhancing your skills in wound care, podiatric dermatology, radiological pathology, new surgical techniques and treatments of foot and ankle conditions, and much more.

The conference will also include a comprehensive lecture series on surgical and office-based coding and compliance that you do not want to miss. PICA policyholders who attend the risk management lecture on Thursday at 4:15 PM will receive a 10% risk management premium discount.

The assistant program will cover a broad range of topics to strengthen the knowledge base of your staff and their delivery of health care services that will include podiatric dermatology, addressing your most common billing and coding concerns, quality reporting and MIPS, and much more!

The radiology program is for staff members currently certified as podiatry x-ray operators who need the required 4-hours of radiology continuing education. If your staff are not yet certified, they will need to take TPMA's online 6-hour radiology education and examination program offered exclusively online year-round at www.tnpma.org/radiology-certification.

TPMA's annual business meeting will be held on Friday at 12:00 PM where members will receive an update on the association's activities and other important information. On Friday evening, all attendees are invited to attend a reception hosted by TPMA to reconnect with colleagues while enjoying cocktails and appetizers.

Don't forget to stop by the exhibit hall to explore and learn about new innovations, products, and services that you do not want to miss from top industry members. For every three booths that you visit, you will receive a ticket to enter your name into drawings for a variety of excellent prizes. We are grateful for the support our industry partners provide us and the vital role that they play in our podiatry community.

We hope that you will find the conference to be an exceptional event that delivers the high-quality education you expect from your association.

TENNESSEE PODIATRISTS PAC

The Tennessee Podiatrists PAC (TN-P-PAC) is a non-profit, bipartisan fundraising committee through which podiatrists support state candidates who champion podiatric medicine's issues before the Tennessee General Assembly.

TN-P-PAC enables podiatric physicians to be effectively involved where public policy decisions are made that impact how healthcare is administered and regulated in Tennessee. By combining resources through contributions to the TN-P-PAC, podiatric physicians gain a stronger voice for the profession, their practices, and the patients they serve.

When you consider the importance of legislation in creating the laws and regulations that govern nearly every aspect of our healthcare system, the importance of supporting those who advocate for podiatric physicians and their patients is clear. Help make sure the voice of podiatric medicine is heard when and where it counts!

PASSION LEAD US HERE

The APMA Political Action Committee (APMAPAC) is a nonprofit, bipartisan fundraising committee through which podiatrists support federal candidates who champion podiatric medicine's issues before the US Congress.

Because of the efforts of the APMAPAC and its parent organization, the American Podiatric Medical Association (APMA), the profession has gained a national presence as a political force in Washington, DC.

APMAPAC's role is to support candidates seeking Congressional office in the US House and Senate. The only other legal means for such support is through contributions made directly to a candidate by an individual.
