MIS FiberTak[®] Achilles SpeedBridge[™]

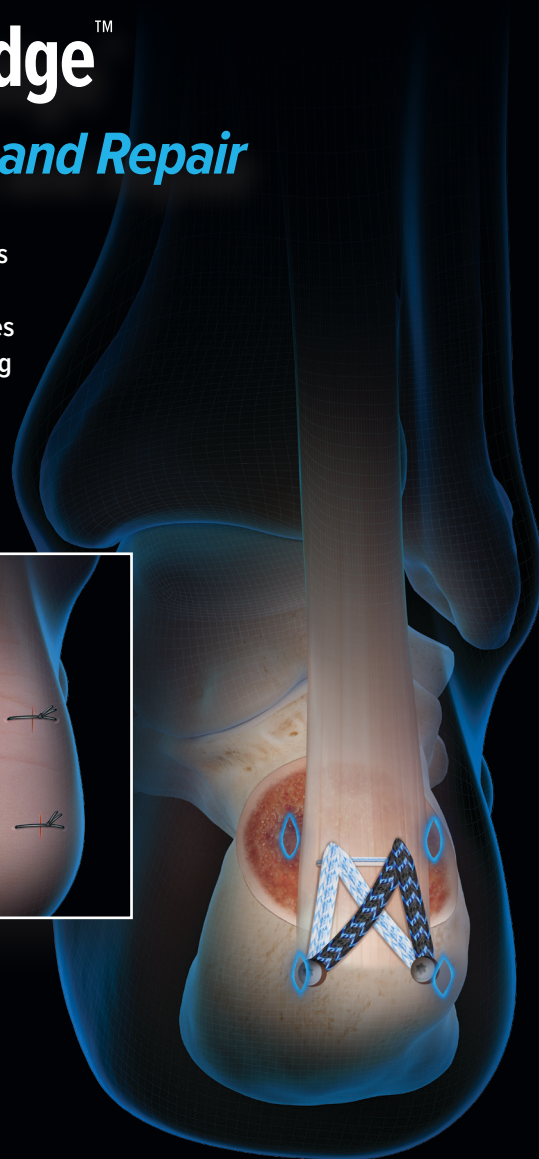

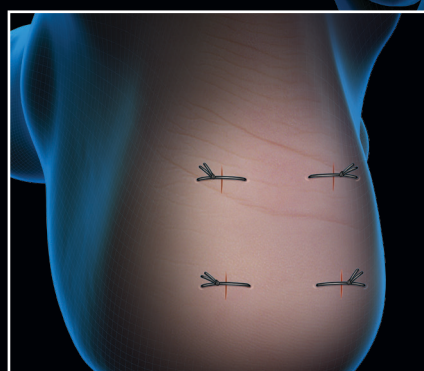

Percutaneous FiberTape[®] Compression and Repair

The MIS FiberTak Achilles SpeedBridge repair implant system enables an hourglass pattern of FiberTape suture and knotless rip-stop sutures to be laid over the tendon's distal end in a completely knotless 4-anchor configuration. It also provides rigid tendon fixation with improved tendon-to-bone opposition, potentially allowing for immediate postoperative weightbearing and range of motion.¹

2.6 mm Knotless FiberTak anchors
for proximal fixation (x2)

DX 3.9 mm BioComposite
SwiveLock[®] anchors for distal
fixation (x2)

MIS FiberTak Achilles SpeedBridge Features

- Four small poke holes
- 25% less implant material than the 4.75 mm SwiveLock Achilles SpeedBridge construct
- Knotless rip-stop doubles the biomechanical strength²
- Collagen-coated 1.7 mm FiberTape suture
- Cannulated instrumentation for percutaneous approach

Postoperative management is patient-specific and dependent on the treating professional's assessment.
Individual results will vary and not all patients will experience the same postoperative activity level or outcomes.

DEAR COLLEAGUE

On behalf of the Tennessee Podiatric Medical Association, it is my pleasure to invite you to attend the **Tennessee Foot & Ankle Conference** on **September 26-28, 2024** at the **Franklin Marriott Cool Springs** in Franklin, TN where you can earn 20 CECH.

Our three-day conference will cover the entire spectrum of foot and ankle care in sessions aimed at emerging trends in foot and ankle surgery, practice management, wound care, the latest in artificial intelligence in podiatry, the intersection of various podiatric sub-specialties, emergency medicine, new surgical techniques and treatments of foot and ankle conditions, and much more.

The conference will also include a comprehensive lecture series on surgical and office-based coding and compliance that you do not want to miss. PICA policyholders who attend the risk management lecture on Thursday will receive a 10% risk management premium discount.

The radiology program is for staff members currently certified as podiatry x-ray operators who need the required 4-hours of radiology continuing education. If your staff are not yet certified, they will need to take TPMA's online 6-hour radiology education and examination program offered exclusively online year-round at www.tnpma.org/radiology-certification.

TPMA's annual business meeting will be held on Friday at 12:00 PM where members will receive an update on the association's activities and other important information. On Friday evening, all attendees are invited to attend **TPMA's 50th Anniversary Celebration** where we will host a fantastic evening of food, drinks, and entertainment. I hope to see you there!

You'll also be able to visit the exhibit hall to explore and learn about new innovations, products, and services that you do not want to miss from top industry members. For every three booths that you visit, you will receive a ticket to enter your name into drawings for a variety of excellent prizes. We are grateful for the support our industry partners provide us and the vital role that they play in our podiatry community.

You can register online at www.tnpma.org/conference. Should you have any questions, please contact us at **615.353.0046** or info@tnpma.org. We hope to see you in September!

TPMA PAC

The Tennessee Podiatrists PAC (TN-P-PAC) is a non-profit, bipartisan fundraising committee through which podiatrists support state candidates who champion podiatric medicine's issues before the Tennessee General Assembly.

TN-P-PAC enables podiatric physicians to be effectively involved where public policy decisions are made that impact how healthcare is administered and regulated in Tennessee. By combining resources through contributions to the TN-P-PAC, podiatric physicians gain a stronger voice for the profession, their practices, and the patients they serve.

When you consider the importance of legislation in creating the laws and regulations that govern nearly every aspect of our healthcare system, the importance of supporting those who advocate for podiatric physicians and their patients is clear. Help make sure the voice of podiatric medicine is heard when and where it counts!

PASSION LEAD US HERE

The APMA Political Action Committee (APMAPAC) is a nonprofit, bipartisan fundraising committee through which podiatrists support federal candidates who champion podiatric medicine's issues before the US Congress.

Because of the efforts of the APMAPAC and its parent organization, the American Podiatric Medical Association (APMA), the profession has gained a national presence as a political force in Washington, DC.

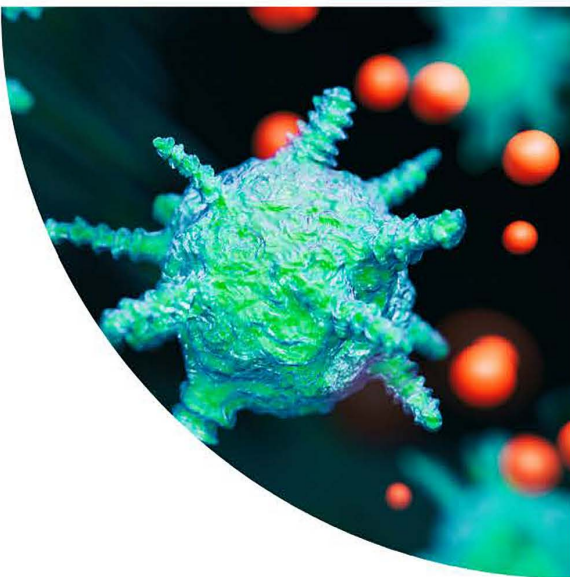

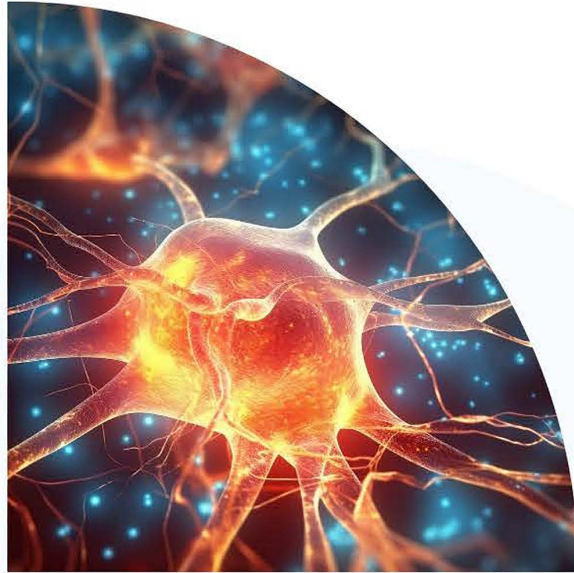

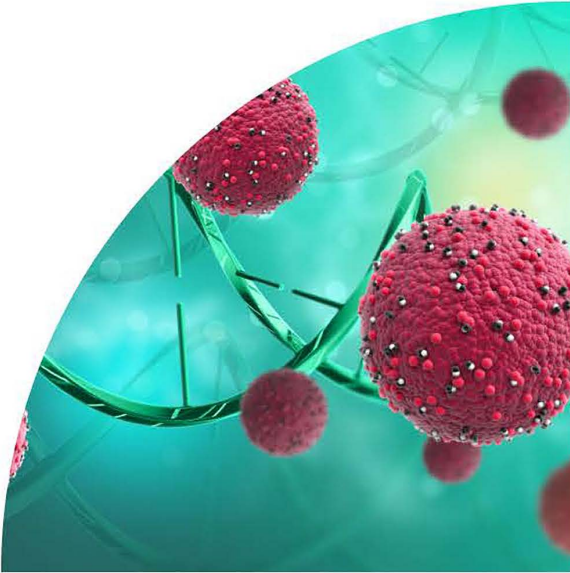

APMAPAC's role is to support candidates seeking Congressional office in the US House and Senate. The only other legal means for such support is through contributions made directly to a candidate by an individual.
